

## ***Come Grow With Us!***

From its rural Kansas roots, guided by the values of its founder, **A-Lert Construction Services** has grown from a small, regional contractor to a diversified, national industrial construction company with offices throughout the U.S.

At A-Lert, we believe that our employees - not cranes, laptops or fancy offices - are our most important asset. **People make the difference.** And we are committed to training and developing our people to be their best, because when people grow, our company grows with them.

When you join the A-Lert family, you'll work for a company that takes an active interest in your personal and career success, and who promotes a culture of integrity, safety, and personal growth. And if you have the desire and ability to manage projects and lead people, there is almost no limit to how far you can go.

- ✓ **Great Pay & Benefits!**
- ✓ **Great Projects!**
- ✓ **Great People!**
- ✓ **Great FUTURE!**

We invite **you** to explore the many career opportunities with A-Lert Construction Services.

***Looking for a  
REAL  
Career Opportunity?***

# Growth—Recognition—Opportunity

**What kinds of careers, and how much could I make?\***

<b>Apprentice/Laborer</b>	<b>\$32 - 44K</b>
<b>Millwright</b>	<b>\$64,062</b>
<b>Ironworker</b>	<b>\$57,196</b>
<b>Pipewelder</b>	<b>\$62,509</b>
<b>Structural Welder</b>	<b>\$56,379</b>
<b>Pipefitter</b>	<b>\$59,558</b>
<b>Electrician</b>	<b>\$57,741</b>
<b>Crew Supervisor</b>	<b>\$77,917</b>
<b>Project Manager</b>	<b>\$88,675</b>

\*Annual average base pay taken from 2015 NCCER nationwide survey of industrial and commercial construction companies . Does not include overtime, per diem and incentives.

**What if I'm not trained in a skilled trade?**

While we employ LOTS of general laborers, there are **many** opportunities to develop craft skills and credentials through your work experience. This will improve your pay.

Some of our locations also offer 4 year **apprenticeships** where you will receive both formal and on-the-job training in the craft of your choice, each year receiving an advanced level of pay. And if you are a U.S. Veteran, you can apply your GI Bill benefits to make this process even easier. Once completed you will be granted craft Journeyman status, giving you not only opportunity for higher pay and greater challenges, but also a credential you can carry with pride for the rest of your life!

**Where would I work, and on what kinds of projects?**

At any given time we have projects going on in at least a dozen states. While some employees like to work on crews that travel from job to job - and the additional perks that go with that - most employees work in geographic regions that allow them to go home each night and be with their families. So whether you are single and footloose or have a family you wish to stay close to, **we work hard to accommodate your needs.**

And when it comes to projects, A-Lert regularly performs all types of construction, maintenance and repair projects in such diverse industries as grain and food processing, energy generation, paper and pulp, chemical processing, and more.

We have built some of the world's largest industrial facilities, **so if you want to be a part of building something great, you've come to the right place!**

**Build Your Future With A-Lert**
